

# OLSEN'S BRED GILTS

ALL GILTS ARE PUREBREDS BRED FOR PUREBRED LITTERS

<u>Lot</u>	<u>Ear Notch</u>	<u>Breed</u>	<u>Pedigree Information</u>	<u>Service Sire</u>	<u>Due Date</u>
301	102-3	York	Tank x 233-4 (Full Power)	Anchor	07/08/08
<i>Tank daughters have been excellent mama's and these litter 102 gilt's mother is the dam of our herdsire LEGACY. Litter 102 is a great litter of breeding hogs.</i>					
302	201-4	York	Legacy x 248-3 (Timepiece)	Tank	07/13/08
<i>This Legacy daughter has as much style and look as you could want. Bred to TANK will just add more volume. Remember TANK sired the Reserve York gilt at 2008 San Antonio.</i>					
303	202-5	York	Lumberjack x 46-1 (FP 57)	Tank	07/15/08
<i>This Lumberjack gilt is stout &amp; wide with a lot of thickness. She's moderate in her frame. Dam 46-1 is a littermate to Larry Moore's Full Power 46-6 herdsire.</i>					
304	98-4	Duroc	Injector 22-2 x 90-2 (Deep Red)	Spice	07/19/08
<i>This is a heavy structured gilt and bred to SPICE should add the extra width and class.</i>					
305	102-2	York	Tank x 233-4 (Full Power)	Anchor	07/27/08
<i>This TANK daughter should be a herd builder. She has what it takes and being bred to ANCHOR just makes it that much better. Dam 233-4 is the mother of our herdsire LEGACY.</i>					
306	216-1	York	ONE x 49-2 (Timepiece)	Anchor	08/08/08
<i>This gilt is the same mating as Jim Ifft's herdsire PAR 5. Being bred to ANCHOR will add extra bone to her great look. Dam 49-2 produced the Reserve York gilt at the 2007 SWTC, her most recent litter by ANCHOR - a gilt sold for \$3600. In her first show she was grand overall at a very large Illinois Point Show.</i>					
307	214-5	York	Tank x 89-8 (ONE)	Anchor	08/08/08
<i>This massive TANK daughter has as much power as anyone needs and bred to ANCHOR will add more bone &amp; power.</i>					
308	238-4	York	Lumberjack x 93-7 (Hunk)	Anchor	08/08/08
<i>This Lumberjack gilt bred to ANCHOR is really lining up the pedigree. The sire (Lumberjack) and service sire (Anchor) are sired by Grimm's herdsire NBS. Plus the dam's (93-7) mother is a littermate to NBS.</i>					
309	224-2	Duroc	Injector 22-2 x 97-7 (Stretch)	Spice	08/10/08
<i>Muscle, style &amp; look bred to style, look, and power.</i>					
310	231-1	York	Tank x 48-12 (ONE)	One-Up	08/12/08
<i>This will be the first litter of ONE-UP's. I think this could be really good. Dam 48-12 is highly productive and we kept a son called HOSS.</i>					

- 311 212-3 York Tank x 91-4 (ONE) Anchor 08/16/08  
*This wide, deep, muscular gilt bred to ANCHOR should really make some barrows or boars that will compete. Dam 91-4's spring litter has two of the best young boar prospects of the crop.*
- 312 222-3 York Tank x 56-4 (ONE) Legacy 08/17/08  
*This is a powerful, massive gilt with a great look and correctness. Her future is very bright.*
- 313 221-6 York Tank x 91-6 (ONE) Legacy 08/17/08  
*221-6 is one of our best. She should be a real generator. LEGACY barrows have done well.*
- 314 245-3 York Hunk 65 x 78-1 (Visionary) One-Up 08/17/08  
*This future litter of pigs by ONE-UP could be in high demand. Hunk 65 is a littermate to Hirschfeld's herdsire BestMan (Hunk x Timepiece).*
- 315 217-2 York Legacy x 57-11 (Wide Trac) One-Up 08/20/08  
*This gilt is massive, thick & square legged. Bred to ONE-UP should add some bone and flex with a great look. Dam 57-11 is the mother, TIMEBOMB, of one of our past herdsires.*
- 316 221-4 York Tank x 91-6 (ONE) Legacy 08/20/08  
*I like this mating of this deep bodied gilt to LEGACY. Barrows should be good.*
- 317 233-1 York Lumberjack x 93-5 (Hunk) One-Up 08/20/08  
*This gilt is extra heavy structured and bred to ONE-UP could be exciting.*
- 319 221-2 York Tank x 91-6 (ONE) One-Up 08/22/08  
*This gilt is extra wide, extra thick, but not very tall. Pigs from this mating could be out-there for power and mass.*
- 320 231-5 York Tank x 48-12 (ONE) Anchor 08/22/08  
*These litters out of ANCHOR on TANK daughters could put the whole deal together. In our spring pig sale, the first 12 Anchor daughters averaged \$1650. This gilt has great width and volume - she's a full sib to our herdboar HOSS.*
- 321 228-1 Duroc Bold Adventure x 90-6 (Stretch) Spice 08/23/08  
*This gilt is a littermate to our Champion Duroc boar at the 2008 SWTC in Belton, TX. Balance & correct with shape describes her and bred to SPICE - really special.*
- 322 246-5 York Hunk 65 x 64-7 (Full Power) One-Up 08/23/08  
*A really good young September gilt bred to the classy, powerful, heavy boned ONE-UP. Dam 64-7 had 9 litters and a lot of production.*
- 323 224-3 Duroc Injector 22-2 x 97-7 (Stretch) Spice 08/24/08  
*The SPICE pigs have been really opened up and square on both ends.*

- 324      229-2      Duroc    Bold Adventure x 56-2 (Deep Red)      Spice      08/24/08  
*We're really lining the pedigree's up here. Her sire is sired by Bold Stoke. Her mother's grandsire is Bold Stroke. Her mother is the mother of SPICE. Her mother is a full sib to the Champion Duroc gilt at OYE. This is a hog breeders adventure.*
- 325      209-6      Hamp    Judge x 270-10 (Make Me Famous)      Dark Side      08/27/08  
*A very special Hamp gilt bred to the excessively heavy boned, massive, correct, \$34,000 Hamp boar at the '07 Fall Classic, DARK SIDE.*
- 326      222-1      York      Tank x 56-4 (ONE)      Anchor      09/03/08  
*I think this mating is quite good. The powerful, heavy boned ANCHOR on this big ribbed female. The ANCHOR barrows and young boars are the best we've had.*
- 327      225-4      York      Hunk 65 x 52-3 (ONE)      One-Up      09/04/08  
*This gilt is very muscular with a lot of width. ONE-UP's great rump and overall makeup is exciting. Dam 52-3 is a littermate to Ifft's herdsire PAR 5.*
- 328      212-5      York      Tank x 91-4 (ONE)      Anchor      09/05/08  
*This gilt is a bit larger framed, but heavy skeletoned. Pigs should be quite heavy structured.*
